

# Curriculum Vitae – Jyri Lehtinen

28 October 2016

## Personal information

Name Jyri Juhana Lehtinen  
Year of birth 1986

## Degrees

- PhD in astronomy, University of Helsinki, May 2016  
Thesis title:  
*Variability of young solar-type stars: Spot cycles, rotation, and active longitudes*
- MSc in astronomy, University of Helsinki, Jun 2010
- BSc in astronomy, University of Helsinki, Jun 2009

## Present employment

- *Postdoctoral researcher*, Max Planck Institute for Solar System Research, Göttingen, Germany, Sept 2016 – present

## Previous employment

- *Postgraduate student*, University of Helsinki, Finland, Sept 2010 – Feb 2016
- *Student Support Astronomer*, Nordic Optical Telescope, La Palma, Spain, Dec 2011 – Dec 2012
- *Visiting postgraduate student*, Aalto University, Espoo, Finland, March 2016 – May 2016

### Teaching duties

I have had teaching duties on the following courses at the University of Helsinki:

- *Basics of Observational Astronomy I*, lecturer and teaching assistant
- *Advanced Course in Observational Astronomy I*, teaching assistant in charge of guiding remote observations
- *Structure and Evolution of Stars*, teaching assistant
- *Time Series Analysis in Astronomy I–II*, teaching assistant
- *Variable stars*, teaching assistant
- *Time Series Analysis in Geosciences*, study group supervisor
